

**UNITED REPUBLIC TANZANIA  
MINISTRY OF AGRICULTURE  
CASHEWNUT BOARD OF TANZANIA**

**TANZANIA INTERNATIONAL CASHEW CONFERENCE (TICC)**  
Held at Julius Nyerere International Conference Centre, Dar es salaam, Tanzania.

## **CASHEW INDUSTRY IN TANZANIA**

### **Introduction**

The Cashewnut Board of Tanzania (CBT) is a corporate body established by Act No. 18 of 2009. It is entrusted with the responsibility of regulating the development of the Cashew Industry in Tanzania. The main functions of CBT fall under three categories namely; Regulatory, Facilitation, and Promotional functions.

### **Regulatory functions include:**

- Enforce the implementation of regulations in respect of farming, marketing, processing, transporting and storage of cashew nuts.
- Collect refine, maintain, use or disseminate information or data concerning the cashewnut industry.
- Regulate and control the quality of cashewnuts, kernels and cashewnuts by-products.

### **Facilitation Functions include:-**

- Grant licenses or permits for buying, processing and exporting of cashewnut.
- Register cashewnuts growers, buyers, sellers, processors and exporters.
- Appoint inspectors for the inspection of cashewnuts farms, cashewnuts, kernels, premises, processing facilities, warehouses and any other facility.
- Provide the basis or method of pricing of cashewnuts and other products based on market forces.

### **Promotional Functions include:-**

- Promote the quality and competitiveness in the cashewnut industry within and outside Tanzania.

### **About cashew in Tanzania**

Tanzania is among traditional cashew producing countries known for the best quality of Cashew around the world. Cashewnut is the main contributor in the exports basket of Tanzania ranking the first highest export value among main agricultural exports. Production wise Tanzania ranks 8<sup>th</sup> in the world and 3<sup>rd</sup> in Africa by 2021/22, aiming to increase the production of raw cashewnut to 700,000 MT by 2026. Currently more than 80% of Cashew is exported in raw form mainly to India and Vietnam, though the Country could gain more if value added products of cashew could be exported. Government currently has set several strategies to ensure 60% of the raw cashewnut is processed locally and have sustainable and reliable market of raw cashewnut, kernels and other products by 2026.

Potential for investment in cashew sector include: establishment of cashew plantations in the country; investment in cashewnut processing factories; establishment of plants for manufacture of pesticides, jute bags and other inputs used in Tanzania as well as investment in the supply of machineries, Equipment and spare parts.

### **Tanzania International Cashew Conference - TICC**

Cashewnut Board of Tanzania (CBT) in collaboration with ACA, TARI, TIC and others are proudly to bring Tanzania International Cashew Conference (TICC) to be held on 11<sup>st</sup> – 13<sup>st</sup> October, 2023. The Conference will pull together Local and International stakeholders in the Cashew Value Chain (Farmers, Processors, Buyers, Roasters, Logistic Companies, Cooperatives, Input Suppliers, Warehouse Operators, Researchers, Machines and Spare parts Manufacturers, Regulators, Consumers, Associations, Financial Institutions, Researchers, Policy Makers, Development Partners, Investors and Others) with the aim of strengthening sustainable partnerships and bring to light the opportunities available to invest in the cashew industry.
